

# Trust & Telemedicine Study

We are looking for physicians or patients willing participate **45 to 1-hour interview** over the phone or a videoconferencing platform (e.g., Zoom or WebEx). We will be asking you questions on trust, telemedicine, and the patient-physician relationship.

## Who can participate?

- A physician providing OR a patient receiving primary care services
- Participating OR have participated in a telehealth appointment
- Fluency in English
- Above the age of 18

## Time or other commitments required of participants:

45 min to 1 hour interview scheduled over email with study coordinator.

## Participants will receive:

This is a qualitative study, in which the participants will only be interviewed.

## Is compensation provided?

A \$10 gift card may be provided to patient participants to reimburse them for their time.

## To participate, please contact:
